

YOU HAVE THE LOWEST QUALITY ROOF IN THE WORLD

AND YOU LIVE IN TEXAS!

Can you prove this wrong?

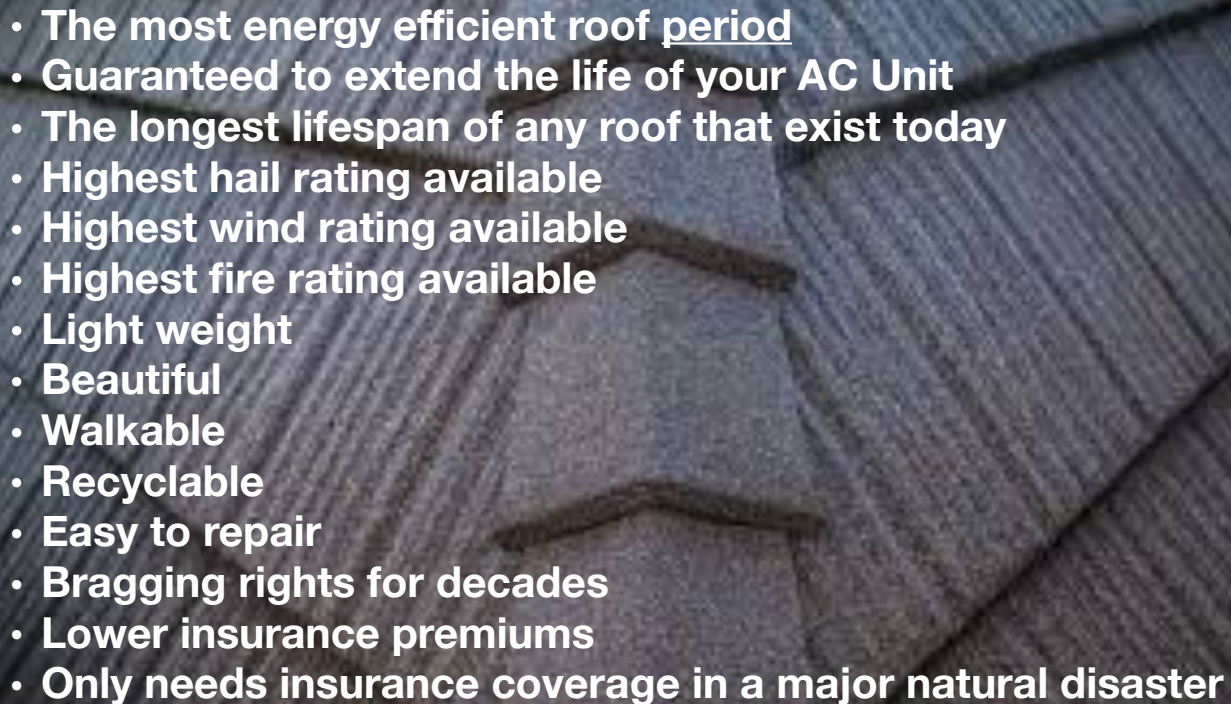

- The most un-energy efficient roof period
- Undisputedly the shortest lifespan of any roof other than straw
- Lowest hail rating
- Lowest wind rating
- Pretty much (not) covered by insurance for wind damage
- Cheaper than your front door mat per square foot including labor
- Cheap!
- Cheap!
- Cheap!
- One weird fact - Some insurance companies will applaud you for owning it
